Telugu

## Organisations

06/2025 – 06/2025 Chennai, India	<b>Lions Club, Pallavaram</b> Volunteer  The Lions Club in Pallavaram is an active branch of Lions Clubs International, well-known for its community service projects around Chennai, especially in Pallavaram and nearby areas like Chromepet and Nehru Nagar. They regularly organise free eye and dental camps that take place on the fourth Sunday of each month. The club has also been recognised for service during challenging times, such as COVID-19, supporting the poor and local police.  During my 6-week volunteer experience in the club, I was actively involved in their signature community outreach programs. My efforts were contributed to organising and conducting free eye and dental camps held at SRDFVV School, ensuring smooth registration, patient support, and coordination with medical professionals.
